rather This this be Oct - YOU select inclu Palm	er, has let the Bermuda grass go dormant for the winter, leaving the turf areas brown all winter. was done to save money by not watering turf all year round. The idea has come up, to reverse by growing green grass when the weather is nice and people are out enjoying the outdoors – Apr, and let the grass die out during the summer months. The board would like to know how I would like to see the turf areas maintained. Please read choices on the following page and cet the option you prefer. Note: this question is in reference to master common areas only, which ides turf on Palm Valley Blvd. from approximately 132nd Drive to 133rd Drive, and turf at the Nalley monument signs. There are separate questions below regarding specific neighborhoods arcel area turf.
	row SUMMER GRASS - Bermuda only – means green grass approx. April thru Sept – requires a rater budget approx. \$7,500 - This is what we currently do
	row WINTER GRASS - Winter Rye only – means green grass approx. Oct thru April – requires a rater budget approx. \$6,000 - This would be a cost savings from what we currently do
	row green grass ALL YEAR - Bermuda in summer and Rye in winter – means green grass 2 mos/yr – requires a water budget approx. \$9,000 - This may cause an assessment increase
	orefer turf areas be eliminated by converting to rock landscaping to cut water costs considerably.
